2018 Mazdaspeed 3 Ecu Wiring - Level 1 - Sport Category. Cars running in Sport Category must have been series produced in quantities of at least 1,000 in that model year with normal road touring equipment, capable of being licensed for normal road use in the North America, and normally sold and delivered through the manufacturer's North American retail sales outlets. I just received my diverter valve upgrade from good-win today. it was probably one of the easiest things I have done to a car. the performance overall seems to be the same, but where this thing is great is when you are tooling around moving slow in stop and go traffic. it seems like you are on boost at considerably lower rpm's. New to the TEIN line is the micro speed valve which adds a separate valve for low speed compression. In addition to better suspension response by independently tuning the damper for different damper response speeds, the MSV valve eliminates the "pogoing" during straight line constant speed (ie. driving on freeway) associated to older TEIN systems and other aftermarket suspensions.
